UNLIMITED POTENTIAL  
BUT LIMITED RESOURCES?

## HOW DO I COMPETE WITH THE BIG BOYS?

With our high quality, technology driven support team of programmers, analysts and support personnel working real time for customers internationally, you can expand and grow, with minimal investments.

Go on, compete.

Outsmart360 is a fast growing provider of technology, design and back office outsourcing services to small and medium sized companies, helping them cut costs and improve focus and productivity.

## TECHNOLOGY SERVICES

Outsmart360 offers you the possibility of setting up a dedicated technology team in India to support your current team and work on internal software and product development or online maintenance support for your customers. Our highly qualified technology personnel are also available for one-off custom technology and support projects.

Powered by state of the art communication systems and infrastructure, you have access to a team that could support and be a direct extension of your existing development team at a fraction of the cost.

*"This was the perfect support for our development team in Norway!"*

## BACK OFFICE SUPPORT

OutSmart360 provides a whole range of services that are tuned towards what you consider back office. We will work closely with you in training our back office team and monitor activities on a daily basis to ensure continuous process improvement. These services range across finance and accounting for Accounting services firms, administrative services include data entry and processing services, and large volume design outsourcing services.

All our back office teams are monitored by trained Scandinavian professionals who will maintain regular contact with you.

If you are seeking to increase efficiency, reduce costs, increase your profitable services to clients, then joining our back office partnership program is the next step.

*"We have been working closely with OutSmart360s accounting services team over the past year and we look forward to expanding our projects with them."*
